Booking Information

Miscariage is a four-piece crossover metal band from Eastern Switzerland, now back on stage together after a break of around 30 years. What once started in a small rehearsal room has lost none of its energy – quite the opposite.

The current set combines the band's original songs with new ideas and selected cover versions. The sound is powerful, honest, and direct – with strong live energy and a clear sense of how to engage the audience.

In their early days, Miscariage played numerous shows in the region as well as some performances abroad. Today, the band returns to the stage with experience, passion, and a new focus: while dreams of fame and big success once took center stage, it is now all about the joy of making music and delivering authentic live performances that connect with the audience.

Miscariage offers a compact and effective live set of approximately 45 to 60 minutes – ideal for club shows, events, or as a support act.
